Spencer Summers is our new editor. Here is what he has to say:

I think that this is a great site, but I also feel it could be an even better site. As a new editor, new content will be arriving soon. Some of this includes:

- An all new, updated, vehicles section.
- Villians and other lesser characters added to the character section.
- All new content in the SWKotOR 3 section, including rumors and a place where you can write what you think should happen in the next game.
- And lots more!
