A MONTH OF WAR!

The Republic's alliance with the Jedi has been reformed!

The War for the Old Republic Galaxy heats up as a whole new conflict brews! Make sure you get posting as the fight gets turned up a notch this month!

A series of decisive battles are being panned and thought of. These battles will control the fate of planets within the Galaxy. At the end of the month, whichever side who has won a planet will control it!

Wars will be taking place on Tatooine, Dantooine, Mandalore and Nar Shadaa.

But this fight isn't just between the Republic and the Sith. Crime organizations like the Exchange are looking to cash in on the conflict, and are hoping to retain their control of Nar Shadaa.

More Action! More Drama! The SWKOTOR RPG is where it's at!
